Senior Mobile Application Developer

PROFILE SUMMARY

Senior Android & Flutter Mobile Application Developer with 8+ years of experience in Java, Kotlin, Jetpack Compose, MVVM, and Clean Architecture. Proven track record of building scalable, high-performance apps, improving app stability and performance in Agile environments.

IT SKILLS

Android Skills:
Kotlin, Java, Jetpack Compose, XML, MVVM, Clean Architecture, Coroutines, Flow, Retrofit, Room, Hilt, CameraX, WorkManager, Firebase Auth, Push Notifications

Flutter Skills:
Dart, Flutter, BLoC, GetX, Dio, Responsive UI, Cross-platform Deployment

Native & Low-level:
JNI, NDK, C/C++, Native SDK Integration, Performance Optimization

Databases:
Room, SQLite, Firestore

Tools & Platforms:
Android Studio, VS Code, Git, Firebase Console, Play Store & App Store Deployment

Methodologies:
Agile, Scrum, SDLC, API Integration, Performance Profiling, CI/CD Basics

Additional Skills / Keywords:
Product Management, Mobile Platforms, Customer Experience, Strategic Thinking

ORGANISATIONAL EXPERIENCE

Sr. Mobile Application Developer
DigiMantra Labs | Oct 2023 - Dec 2025

- Architected Clean Architecture with BLoC + GetIt DI + Dio HTTP client, guided 4-member team
- Reduced query resolution time 40%, fixed defects maintaining 99% uptime
- Customized 50+ reports, spearheaded daily scrums improving Flutter team productivity 30%
- Built WellTra.AI Health Tracker using Flutter/Dart + BLoC + Dio - Play Store/App Store
- Integrated native Scan SDK via Flutter plugins, optimized rPPG processing (30% latency)
- Built responsive UI with GetX, BLoC state management and Dio APIs, ensured on-device data privacy
- Performance tuning via Flutter DevTools, deployed cross-platform iOS/Android single codebase

Sr. Android Developer
Netset Software Pvt Ltd | Nov 2022 - Sep 2023

- Applied Clean Architecture with MVVM/MVC, reviewed designs for Web3.0 scalability
- Directed 4-member team, drove 40% faster query resolution via daily scrums
- Fixed defects across phases/post-go-live, preserving 98% app stability
- Built 30+ custom reports following quality processes
- Acquired expertise in cryptocurrency technologies, AI integration, Flutter basics
- Developed and sustained native Android applications using Kotlin, Jetpack Compose, MVVM, Coroutines, and Hilt following Clean Architecture principles.

Sr. Android Developer

CQLsys Technologies Pvt Ltd | Jan 2018 - Nov 2022

- Managed 6-member team, deployed MVVM architecture, reviewed designs for 20+ projects
- Drove 35% faster query resolution, coordinated cross-functional teams via daily scrums
- Fixed 200+ defects across project phases/post-go-live, upheld 98% app stability
- Generated 40+ custom reports, ensured quality deliverables per organizational standards
- Mastered Kotlin, Retrofit, Firebase, QuickBlox/Agora for payment gateways & video calls

Jr. Android Developer

Candour Tech Solutions | Aug 2017 - Dec 2017

- Built 2 apps from scratch using Android SDK full lifecycle
- Mapped requirements to specs for 2 apps, delivered on-time in 4 months
- Sanity tested 2 releases, achieved 95% bug-free launches

PROJECTS

WellTra.AI Health Tracker

WellTra.AI Health Tracker App uses rPPG technology for contactless vital signs monitoring via your phone's camera. Track HRV, blood oxygen, blood pressure, and stress effortlessly for better wellness.

Tech Stack: Flutter, Dart, getIt, Dio, Kotlin, Swift, NDK, C/C++, BLoC, Clean Architecture, AI Integration, Signal Processing, rPPG Algorithms, Health Analytics

PlayStore: https://play.google.com/store/apps/details?id=com.welltra&hl=en_IN

AppStore: <https://apps.apple.com/in/app/welltra-ai-health-tracker-app/id6474238774>

KaCyber Go Ticketing App

Engineered city-to-city travel booking platform for Uganda market. In-corporated payment gateways. Enabled passengers to search, compare, book tickets from transport operators.

Tech Stack: Kotlin, Retrofit, MVVM, Coroutines, Hilt, Binding, Coil, Google Maps SDK.

PlayStore: https://play.google.com/store/apps/details?id=com.kacyber.tickets&hl=en_IN

Mender (Location-based Service App - Play Store)

Built on-demand provider matching with real-time location tracking and hourly payment system with swipe-to-complete job tracking.

Tech Stack: Kotlin, Retrofit, MVVM, Coroutines, Hilt, Binding, Glide, Google Maps SDK, Socket.IO.

PlayStore: https://play.google.com/store/apps/details?id=com.mender&hl=en_IN

TicketLink (Document Management App - Play Store)

Created secure document storage with expiry date management, fingerprint authentication and multi-level notifications.

Tech Stack: Kotlin, MVVM, Coroutines, Hilt, Binding, Glide, Local Storage.

CarSwap (Car Exchange Marketplace - Play Store)

Created car matching algorithm for buy/sell/exchange with automated pricing and monthly offer cap management.

Tech Stack: Kotlin, Retrofit, MVVM, Coroutines, Hilt, Binding, Glide.

PlayStore: https://play.google.com/store/apps/details?id=com.elitem.carswap.me&hl=en_IN

ACADEMIC DETAILS

Master of Computer Applications (MCA), MAIMT Jagadhri — 2017

Bachelor of Computer Applications (BCA), Govt. College Chhachhrauli — 2014
